HDPE Bar Arm Chair

We are committed to providing consumers with high-quality outdoor furniture so that they can enjoy a comfortable and high-quality living experience in their outdoor spaces. Our mission is to allow people to have a comfortable, secure and wonderful life experience while being in close contact with nature outdoors.

ATTENTION:

Please exercise caution when unpacking the product with sharp tools to avoid inadvertently cutting the balcony chair.

Upon opening the package, kindly inspect the contents to ensure all accessories are present and in good condition. If anything is missing or damaged, please contact us through our official email at [**support@a-ecoliving.com**](mailto:support@a-ecoliving.com)

Before sitting, meticulously secure all bolts, screws, and knobs to ensure the product's stability and safe operation.

For your safety, please adhere to the specified weight limit. Exceeding this limit can compromise the structural stability of the chair.

Under no circumstance should the product be used as a standing or climbing platform. Standing on any part of the product is strictly prohibited.

During assembly, it is imperative to keep children at a safe distance. The package includes small parts that may be hazardous if swallowed or inhaled.

ASSEMBLY INSTRUCTION

Your furniture requires assembly before use. You must read the entire assembly instructions to become familiar with the unit before you set up this product.

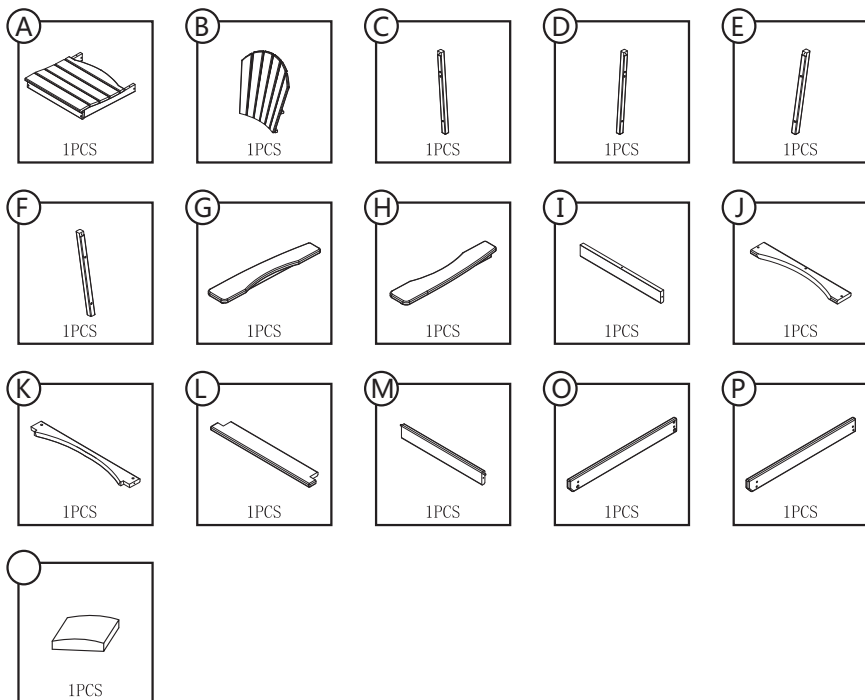

Safety Warning and Precautions

WARNING: When setting up your furniture, basic precautions should always be followed to reduce the risk of personal injury and damage to the product.

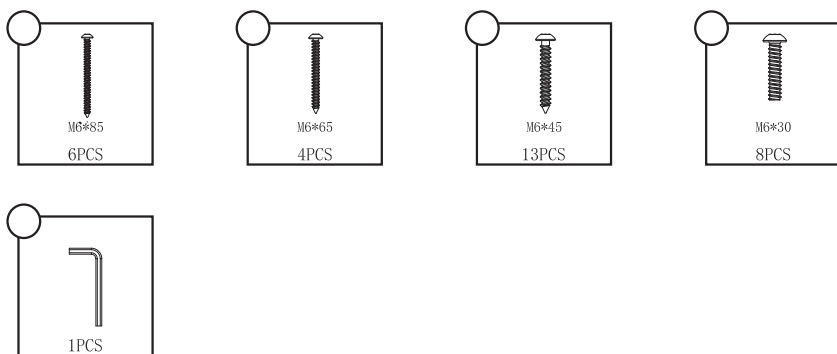

Read all instructions before assembly and usage of this product:

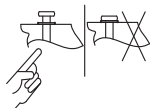

1. Select an ideal location. Set out all parts on a clear and level surface before assembly. Ideally, the furniture should be set up in the desired location to avoid moving after assembly.
2. Use caution. During all the processes of assembling, especially when lifting heavy or large parts, pay attention to safety.
3. Tools and Assistance. An adjustable spanner is required for assembly. It is recommended that 2 people assist with assembly.
4. Check all parts before assembling, ensure you have all parts detailed in the parts list on Page 4
5. Refer to the assembly diagram. During assembly, refer to the assembly instructions on the following pages.
6. Caution. Keep children away from the work area during assembly. Do not allow children to handle parts or tools while assembling.
7. If you have any questions, please contact us promptly via email: **support@a-ecoliving.com**

PART LIST

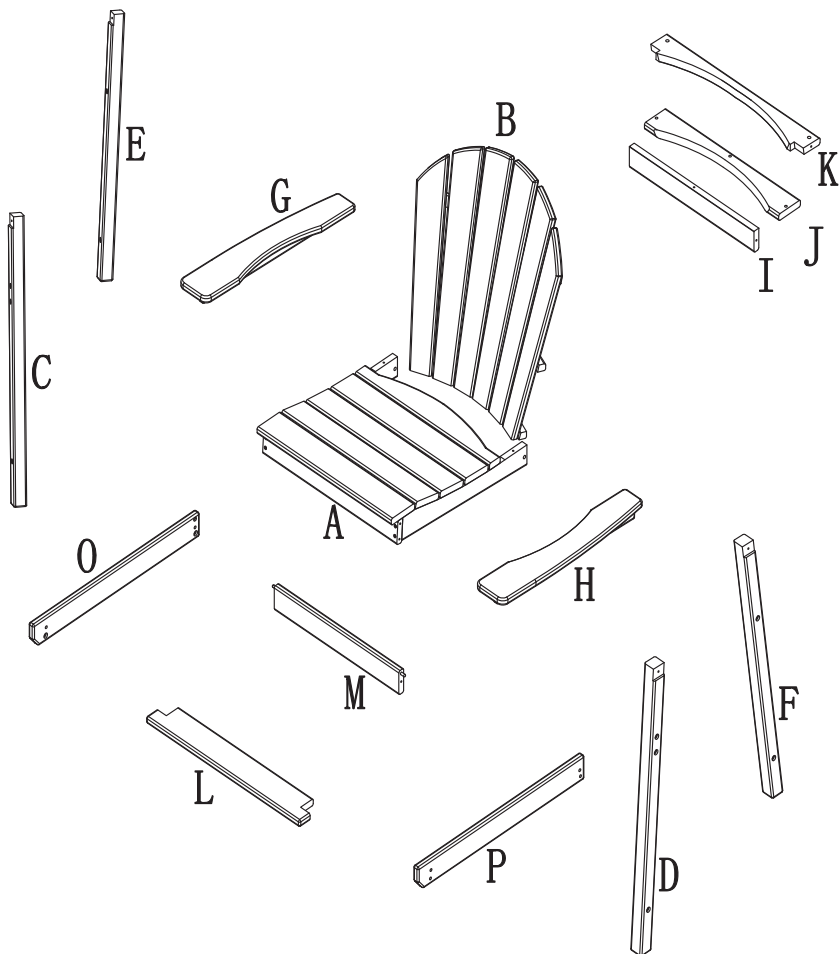

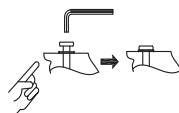

HARDWARE LIST
